WORK EXPERIENCE

Software Engineer, Theralogs LLC - Worcester, MA - Dec/2020 - Present

- Created an MVP using Django and AWS to test out concept. Released official 1.0 version soon after.
- Built a mobile companion app using React Native and Django REST Framework, soon to be on the Apple App Store and later on Google Play Store.
- Currently maintaining the Django web app while doing outbound marketing as well.

Full Stack Engineer, Nutrimeidy - Boston, MA - Aug/2019 - June/2020

- Maintained the current second version of the iOS/Android/Web apps as well as backend.
- Built several new screens for the mobile app to show Nutritional summary data.
- Worked on building the third version of the app using Framework7 for App/Web and Java/Play for backend.

iOS Developer, WonderApps Inc - Amherst, MA - Nov/2017 - May/2018

- Designed and built MVP for iOS app to showcase to investors.
- Started 1.0 version of map-based iOS app that connected to Firebase for the backend.
