SOFTWARE DEVELOPER

A fast paced software developer who has the ability to learn quickly and work diligently with any project thrown at him.

EXPERIENCE

Line Server, Worcester Dining Hall, UMass Amherst, Amherst, MA 2018 - Present

Posted at the main line in the dining hall gives me an opportunity to showcase my efficiency in providing an excellent service to the students.

Customer Service Associate, Walgreens, Worcester, MA 2014-2017

Being at the main cash register gave me the chance to show my managers that I was able to work reliably in facilitating the needs of the customers while also showing how self-sustaining I was when left alone most of the time.

EDUCATION

University of Massachusetts, Amherst — Amherst, Ma — B.S. Computer Science, 2019

Quinsigamond CC — Worcester, MA — A.S. Computer Science, 2017

PROJECTS

Homework: An iOS app I launched on the Apple App Store that helps you keep track of all the important school assignments you have coming up.

Wait: An iOS app that I also launched on the Apple App Store that helps you stop the bad habits of consumer overconsumption.

RELEVANT COURSES

Programming with Data Structures: This course provided me with a strong foundation in the basics of the fundamental data structures and also sorting algorithms that would be beneficial to me in the programming career.

Software Engineering: This course provided me with the basic and intermediate knowledge of creating a product and showing me the entire process of development stage to releasing stage.

SKILLS

iOS, Swift, Objective-C, Xcode, Object-Oriented/Functional Programming, HTTP, REST, Java, HTML/CSS, Javascript. (Also have been hacking around with Android and Ruby on Rails)
