2017 A.S. in Computer Science, Quinsigamond Community College

- Relevant Courses Taken: Software Engineering, Systems, Architecture, Intro to CS 1 & 2

WORK EXPERIENCE

Jr. Full Stack Engineer, Nutrimed - Boston, MA - Aug/2019 - June/2020

- Maintained the current second version of the iOS/Android/Web apps as well as backend.
- Built several new screens for the mobile app to show Nutritional summary data.
- Worked on building the third version of the app using Framework7 for App/Web and Java/Play for backend.

Line Server, UMass Amherst Dining Hall - Amherst, MA - Jan/2018 - Dec/2018

- Was very efficient with servicing times and offered excellent assistance to students.
- Served hundreds of students without a hitch each shift.

iOS Developer, WonderApps Inc - Amherst, MA - Nov/2017 - May/2018

- Designed and built MVP for iOS app to showcase to investors.
- Started 1.0 version of map-based iOS app that connected to Firebase for the backend.

Previous Experiences:

- Worked at Walgreens for 3.5 years posted up at the main register.

CURRENT SKILLS

Languages: Swift, Java, Python, HTML/CSS/Javascript

Frameworks/Libraries: iOS, Android, React, AngularJS, Django, Flask, Framework7

Soft Skills: Leadership, Adaptability, Communication, Problem-Solving, Teamwork

PROJECTS

WowMe: (in development): a React.js app that helps keep track of your workouts.

Homework: an iOS app to help keep track of all your homework assignments.

LEADERSHIP EXPERIENCE

- During UI/UX Design Course: Led a team of 4 to create an iOS app in under a month which we demoed to entire class. I made sure we all got along from the start.
- During Web Dev. Course: Led a team of 6 to create a Python/Django web app the entire semester and was told that we would not have finished if I didn't get everyone on board when times got rough.
